Suggestions on the Duties of a Sunday School Teacher.

Given by J. T. Hochland.

At our County Sunday School Convention at the Grassy Lick Church, on June 11th, the subject: "Sunday school attendance, and how to teach them" was assigned to two of our Sunday school superintendents. They failed to put in their appearance. Their excuse: "too busy on the farm". One of them when pressed for his views on the subject, says: For many years my heart has been with the Sunday school work; concerning Somerset Church, where I worship, the Sunday school is more than its right arm. The greatest help to all Sunday schools is good teachers, who "know how to teach" those in their classes. The teacher's work is one of interest; it demands earnest thought and careful preparation. The true teacher will try to expand the child's mental as well as his spiritual powers; in order to do this, the good teacher will bring himself of help, especially Bible help. The teacher can do much better work who avails himself of every possible advantage in preparing himself in the way of truth and life. Every teacher should seek to know the best method to draw out the mental and spiritual powers of the children for life, happiness and Christ. If the teacher will prepare for thorough teaching, the old saying, "why do many older scholars lose interest in the Sunday school and drop out?" will be answered. Young men and ladies will not tire and drop out where they have thoroughly prepared, enthusiastic teachers. Teach them to be regular in attendance, to a careful study of the lesson, to a love of God. Remember the Sunday school teacher is here to stay forever. He has a permanent place in the church as the pastor; every teacher should prepare for life work, and at the same time live work. As a teacher, get near to, and in front of your class; don't sit at one end of a ten foot bench, and have ten children down full length of bench. Stand in front of the class, whether you are a Prince Albert suit or the finest feathered hat in town, (so you are full of the lesson) the class won't go away empty, but will go happy and satisfied. A teacher should have good memory, good reasoning powers, skill in asking questions, perseverance, love of children, and love for the Bible. He should be prompt, in place before time, take part in every song and get the class to help sing. Don't be fussy and show weariness in the presence of your class; come with a cherry disposition, shake hands, congratulate etc. Study the lesson each day and insist on each member of your class doing the same. This is not an over-drawn picture of what every teacher in this county can be, yet the great want of every Sunday school is real teachers. This is one market which has not been over-crowded, and there is no danger of such a thing happening. The Sunday school wants teachers who teach like they mean something, like they mean to do it with vim and energy, like they had a move on themselves. Teacher and scholar should have an aim in life, and a purpose to live for. The story of the pastor who upbraided the devil for carrying off one of his elders, applies here. The devil answered and said: "I found the elder on my territory and took charge of him, (probably in saloon or ball room) Be sure you do not go around without a purpose or aim in life, or you might get on the devil's territory, then he will

be sure to carry you off. This paper may not be an exact answer to "How to teach," but if you get the good teacher he or she re-states the lesson text of last Sunday; then takes up the connection, shows how this lesson stands in relation with the last one; then the illustrations come on; then adapts the lesson to his class, thus leaving in their hearts seed that will bring a harvest of good, now and in years to come.

Race Problem in Cuba.

It seems that the race question is to be a problem in the new Republic of Cuba, as it has been in the United States for many years past. A recent Havana dispatch says that the negro element has been complaining about being left out in the cold in the matter of distribution of the public offices. A commission called on President Palma a few days ago, and asked that no distinction be made between the two races. The question raised by the negroes is not that individual members of their race shall not obtain positions under the government, but that the lines of official demarcation exist, such as the fact that the artillery corps is divided into two companies, of whites and blacks. The committee cited the case of the day of the arrival of President Palma, when the artillery was lined up in front of the palace, and divided into black and white companies. They also recited the fact that the police authorities of Havana would not receive negroes into the force.

Courtship in Holland.

Holland is a place where primitive customs abound. Traditions are sacredly handed down and observed, and this veneration for ancient things has kept alive in the country what are known as courting Sundays. Throughout Holland the four Sundays of November are kept as fete days. They are named severally Review, Decision, Purchase and Possession Sundays. On Review Sunday everyone goes to church, and after service there is a church parade, when all the young men and maidens look at each other but forbear speaking. On Decision Sunday each would-be benedict approaches the maiden of his choice with a ceremonious bow, and from her response judges whether he is acceptable as a suitor or not. On Purchase Sunday the consent of parents and guardians is sought, if the wooing during the week has been happy. Possession Sunday witnesses the first appearance of the various lovers before the world as actual or prospective brides and bridegrooms.

Cheap and Injurious.

Judge Clarke, of St. Louis, has fined heavily a number of grocers for selling baking powders containing alum. The week before, the Health Department of New York seized a quantity of stuff being sold for baking powder which they found was made from alum mixed with ground rock, and dumped it into the river.

As alum only costs two cents a pound, there is a great temptation for those manufacturers who make substitutes and imitation goods, to use it.

Hurst Bros. Assign.

On Tuesday morning, Hurst Bros., who have conducted a dry goods and clothing store for several years, filed a deed of assignment. Hurst Bros. have for a long time been considered among the most energetic and wide-awake business men of the city.—Richmond Climax.

BRYAN DECLINED

Populist Nomination for Governor of Nebraska.

At Grand Island, Neb., the Populists and Democratic State conventions were held on June 24 and 25.

Senator Allen addressed the Populist convention, making a strong plea for the nomination of William J. Bryan for Governor. A delegate mounted a chair and moved that Mr. Bryan be nominated by acclamation. The motion was carried in the midst of cheering and applause. The conference committee was instructed to notify the Democratic convention of the action of the Populists.

Five minutes later, before the Democrats knew of the action of the other convention, C. J. Smith appeared and announced his willingness to withdraw in favor of anybody who could be nominated by the two bodies. The proposition was received with a chorus of "Noes."

The Democratic convention was notified of the nomination of William J. Bryan by the Populists, and the withdrawal of Harrington. Mr. Smith, who had been nominated by the Democrats, expressed his willingness to withdraw or stand for the nomination at the pleasure of the convention.

Bryan took advantage of the opportunity to address the convention making a plea for harmony and fusion, and at the same time declining to be nominated himself. Both conventions nominated W. H. Thompson, of Grand Island, for Governor.

Kentucky Property.

Honorary Degree.

President Roosevelt, the guest of honor at the Harvard College Commencement received the honorary degree of LL. D. and delivered an address. In the course of his remarks he paid high tribute to the official acts of Civil Governor Taft, of the Philippines, Leonard Wood, former Governor General of Cuba, and Secretary of War Root.

Short Skirts.

At Paris, France, the striking innovation is the advent of the short skirt at the races. Skirts are worn by the most smartly dressed women of ankle length or a bit longer, and the same length all around. Skirts which clear the ground are very much worn by the smart set.

True Words By President Roosevelt.

The recent seventy-third anniversary of the Brooklyn Sunday school Union, was a great event in Brooklyn, and all the day schools adjourned in honor of it. There were over 90,000 children in the line of march. They all passed by the "reviewing stand" in Prospect Park. Among the notable people invited to review this marching army of coming Christian citizens were, President Roosevelt, Governor Odell, Mayor Low, Secretary of the Navy, Moody, Helen M. Gould, and many others. In his letter to the chief marshal of the day, President Roosevelt said: "I am glad to have the chance to express through you, to the children of the Sunday school Union, how glad I am to know that they are fitting themselves to become in the future Christian citizens of this great republic. Sturdy, self-respecting morality, a readiness to do the rough work of life without flinching, and at the same time respond to every call on the spirit of brotherly love and neighborly kindness—these qualities must rest in the foundation of good citizenship here in this republic if it is to achieve the greatness we hope for it among the nations of mankind."

Deplorable Condition in London.

Reports from London tell of unseemly and disgusting exhibitions of lawlessness, on the part of an ignorant section of the population, over the peace proclamation and the preparation for the coronation of the king. On Monday, June 2, scores of men and women lay drunk on the pavements of the fashionable West End thoroughfares, at midnight. The press of the British metropolis has protested vigorously against this unedifying spectacle, but that is all. Our secular papers, both in Europe and America, are, as a rule, simply quack doctors of the social organizations, dealing with symptoms and shutting their eyes wilfully to the causes which make crime and disorder chronic in the congested districts of our great cities. As long as Government compounds with the lawless and brutalizing liquor traffic, such scenes as these which disgraced the great city of London will recur whenever the passions of the populace are stirred by any unusual event.—Christian Standard.

Farmer Caught.

A farmer near Spears has lost many dollars by holding his wheat too long. Last February Sharp & Demois offered him 90c a bushel for his crop, which he refused, waiting the time when it would reach the dollar mark. Last week he decided to sell, and when the crop was examined he found the damp weather and weevil had almost totally destroyed it. At present he can't sell it for no more than 25c a bushel, or the loss of 65c for the privilege of "waiting for something to turn up."—Jesseamine News.

Accepted Assessment.

The Illinois Central Railroad Company paid into the State Treasury \$17,000 tax on its franchise valuation. All the railroads have accepted the assessment made by State Board, except the Chesapeake and Ohio, whose complaint is yet unheard.

The State Prison Commissioners have closed a contract with the Frankfort Shoe Manufacturing Company for the employment of 400 convicts at 50 cents per day per man.

NON-OBSERVANCE.

Thoughtful observers have been frequently startled of late by flagrant instances, in high places, of growing disregard for the Christian Sabbath, and open defiance of the civil law and the Christian sentiment on which that institution rests. When King Edward VII. shocked his English subjects, Dr. Joseph Parker said, praying the while that he might say it "delicately and loyally": "If the King goes to a Sunday concert, as he did recently, he deals a deadly blow to the Englishman's Sunday. The King cannot attend a non-conformist place of worship, but he can go to a Sunday concert. If the King, who is the head of the church and defender of the faith, can violate the English Sunday, what can the people do but follow in his steps? I would rather give a great sum in gold than appear to be disloyal; but I cannot be disloyal to Christ."

When Prince Henry visited this country as the representative of Christian Germany, neither he nor the public officials having his reception in charge deigned even to notice the existence of such a thing as the American Sabbath, carrying the feting, feasting, and journeying, graceful and disgraceful alike, right through its sacred hours and across the continent. What the leaders did and permitted to be done was naturally and inevitably copied by the common people. It will take many a day to remedy the demoralization.

At about the same time the Christian people of the town of Aiken, S. C., were reported as having been obliged to protest to the authorities against the shocking desecration of the sacred day, by the unseemly doings and games of the multi-millionaires who have so largely taken possession of that beautiful region, and whose swollen moneybags have made them feel quite as independent of God

and His government as do the King and the Prince and the American officials.

Naturally and inevitably there has arisen a demand among the common people—especially among those of the baser sort—for equal "rights and privileges," and Sunday games and concerts and plays and saloons are widely clamoring for an "open Sunday," and taking it despite all laws to the contrary. And good men are asking, with bated breath, where is it all to end?

In the name of this Christian nation and of Christendom, which owe all that is best to the Sabbath and the Christian institutions it embodies, and whose very life depends upon the continuance of these institutions, it is high time for every pulpit in Christendom to call a halt in this shameful degradation of God's day. Before God such conduct will one day be seen to forfeit all right to the crown and the principedom and the official position and the wealth thus descended—Homiletic Review.

TRUE TO LAW.

Recent declarations and unjust criticisms, are evidences of the thorough reading of the Advocate, of her powers and influence. This ad shall prove an object lesson to us, the more careful we shall be to elevate the standard of morality and law observances. All laws have an intent, and so long as they are on our statute books they should be enforced. It was a righteous act on the part of the Executive in the days of our fathers, when the man who would farm on Sundays, tramp the woodlands for game or sport with the finny tribe, were caused to answer to the law. Less than a score of years past, a Mt. Sterling Mayor gave notice that the pursuing of trades should cease on Sundays and the man who would dare transgress this law of divine origin would be required to pay the penalty. What the enforcement of the Sunday law to-day and why slack.

OTHERS.

There are others wider in influence, mightier in powers than we, editors who give their time and talents to the molding of a sentiment for justice and right living who see the action of men and rulers and trace them to results in the lives of the weaker and of coming generations. We ask our readers and especially the thoughtless to read the article headed, Non-Observance, and to study it with a critic's mind.

7.802.

Those who taxes for school and all other purposes would be greatly pleased with the present board of school trustees if they would place the delinquent tax list in the hands of someone who would make satisfactory returns. It is a mighty poor business man who can't way a school poll, and a mighty mean man who can and won't. Clean up this business and let's have what's in it.

SCHOOLS.

Good schools are worth much to a community. Their value cannot be estimated, and the best schools make the good better. Our city with the best schools would draw patronage from the surrounding country and possibly many would become residents of Mt. Sterling, causing double growth, a business and school impetus.

A full school brings out the teacher's entire powers, and therefore we would favor full rooms. It is best for our boys and girls. We would object to over crowded rooms because some pupils would be slighted. Our trustees will see to it that no teacher has more pupils than can be worked for the best results.

Resolutions Passed By the Democratic Executive Committee of the 21st Judicial District.

At a meeting of the Democratic Executive Committee of the 21st Judicial District of Kentucky held at Mt. Sterling, Ky., on June 3, 1902, at 3 o'clock p. m. in pursuance of section 3 of the resolutions adopted at the meeting of the said committee held at Olympia, Ky., on April 22, 1902, said meeting presided over by John T. Kimbrough, chairman, and R. A. Chiles secretary, it was

Resolved: First: That the amount to be deposited by all Democratic candidates at said election for the office of Circuit Judge at least 15 days prior to the date of such primary election, with John T. Kimbrough, as provided in said resolutions so adopted at said meeting at Olympia Ky., shall be and is hereby designated at the sum of \$350.00 and in like manner the sum to be deposited by the Democratic candidates for Commonwealth's Attorney that shall be deposited with said Kimbrough at least 15 days prior to that time shall be \$100.00.

Second: That the officers of said election shall be selected by the various county committees at their meeting from a list of officers furnished by the various candidates, same being equalized as near as possible.

Third: That all candidates for the offices of Circuit Judge and Commonwealth's Attorney shall each be entitled to challengers at said election, and shall also be entitled to inspectors to be in said election room, who shall have the right to inspect the vote and seal to a statement of the vote after same is cast, to be furnished by the respective election officers in said precinct. The challengers and inspectors shall be selected by the various candidates and a list of same handed to John T. Kimbrough, the chairman of said district, not less than ten days prior to the date of such primary election, who shall make out and furnish to each of said challengers and inspectors a certificate of their appointment.

Fourth: The Committee reserves the right to change the assessment above named for the reason that all of the persons who are now candidates may not be candidates and it would be necessary to raise the assessment.

Upon motion the Committee adjourns to meet at the law office of R. A. Chiles, in Mt. Sterling, Ky., on Wednesday, July 23d, 1902, at the hour of 11 o'clock a. m.

JOHN T. KIMBROUGH,
Chairman.

Secretary.

Public Speaking.

Hon. Frank A. Hopkins of Floyd county, candidate for the democratic nomination for Congress in this, the 10th district will speak at the Court House this city in the afternoon of Saturday, July 12th. Speaking will begin at 2 o'clock. Other candidates are invited to be present and make known their claims upon this people. Let every democrat come and bring his republican friend with him to hear preached orthodox democracy.

We call attention to the ad. of Miss Pearl Bruton's school. During her experience in the country and city she has made an enviable reputation as a teacher. Her school room is a model of neatness and attractiveness. Pupils committed to her will receive careful attention.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh; which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Where Were the Elect?
Owing to the failure of the Auditor of the War Department to certify Kentucky's war claim, amounting to \$1,340,000, this item was not included in the Deficiency Appropriation Bill. The Auditor's failure to certify the account, was due to the discovery that it must first be approved by the Reviewing Officer of the Treasury Department. Senator Blackburn and Congressman Smith have been assured that the item will be included next December in the Urgent Deficiency Appropriation Bill. The question is being discussed as to what use the State should put the money, and it is said that Gov. Beckham and a majority of the Sinking Fund Commission favor applying it to the extinction of the State's bonded indebtedness, which amounts to \$1,000,000.
To use a million for this little State debt from money we have not got, is something like, counting chickens before they are hatched.

Election.
The second annual election contest will be held in Nicholasville the last of July. The manager desires a representative from our city, and the first young lady to answer will be given preference. The first prize is valued at \$25, the second at \$5. A dance will be given in honor of the contestants. Address The Jessamine News, Nicholasville, Ky.

We suggest the propriety of leaving off the dance; can't Nicholasville furnish something better?

Cheered, Wept, Fainted.
At Franklin the jury returned a verdict of guilty in the case of G. B. Alderson, charged with assassinating P. D. Hall, and fixed his punishment at life imprisonment. When the verdict was returned the spectators cheered wildly. Alderson's two daughters wept and his brother fainted.

\$45,000 for McKinley's Doctors.
An amendment was agreed to in the general deficiency bill appropriating \$45,000 to cover all unpaid expenses incurred on account of the illness and death of President McKinley, including compensation to the physicians. The bill was then passed.

Shoot! Shoot!
The Mt. Sterling Gun Club will give an all-day shoot July 4th. Shooters from adjoining counties are invited to attend, and a good time is assured. Ladies are especially invited. This event will take place at Woodford's Park.

More Oil.
The Kentucky Ragland Oil Company has turned in another oil well at 360 feet, which will pump 35 barrels per day. Quality is a fine lubricating oil.

Death Sentence.
William McCarty, of Lexington, who recently murdered his wife was convicted on Wednesday. His punishment is death.

Mr. Eugene Berry is building a tobacco barn for J. T. Highland, on the old Highland homestead. Mr. Berry says there will be only three or four built in the county this year, a large falling off.

county, on Sunday, June 22, Scott Oldfield and Miss Maude Henry, daughter of "Big" Lewis Henry.

The county examination was held here by County Superintendent W. B. Barker who thought that the questions had gotten out, and had all the applicants sworn. E. C. Whit, of Caney, had the questions; he was told by Mr. Barker if he would tell from whom he bought them he would not be prosecuted. His reply was, "That he bought them from George Amyx, of Daysboro, Wolfe county, paying him \$5 for same." A warrant was issued by J. D. Lykins, police judge of this place for Amyx. He was arrested and brought here on the 21, and tried before Judge Lykins and fined \$50.00, which he paid. Supt. Barker is going to do all in his power to stop the selling of the state board questions—West Liberty Cor. Of Hazel Green Herald.

WOLFE COUNTY.
DRAGGED TO DEATH.

The charge to telephone to any point on the line from Hazel Green to Camargo, or from Hazel Green to West Liberty has been reduced from 20 to 10 cents.
Meadows Ollie Perry and Jim Waldeck with his sister, Miss Candy Waldeck, arrived from Cincinnati and are now the guests of Dr. Waldeck and wife. Mrs. Perry, who is a daughter of Dr. Waldeck, lives in Cincinnati as does her sister-in-law, Mrs. Jim Waldeck.

A boy aged 15 years, son of George Centers, who lives above Lee City, was killed Saturday, June 21. He was riding horseback when the horse ran his foot into a hole and fell throwing the young man off, his foot hanging in the stirrup. The horse ran dragging the young man after him until he came to a crib of a splash dam, into which he jumped and killed the young man.—Hazel Green Herald.

THE PADUCAH.
Wheeler Won a Name.

This Kentucky city is to be honored by having an armored cruiser of the Wheeling class named for her. It was through the influence of Congressman Wheeler that this honor was conferred, and is the first time in the history of this state a war vessel has been named for a Kentucky city. At the proper time steps will be taken to stop the sale of the Paducah either a stand of arms or a silver service.

What a Pull on Uncle Sam's leg.
The General Deficiency Bill passed the Senate, carrying with it appropriations of \$500,000 and \$160,000, respectively for the Buffalo and Charleston, S. C., expositions. The Secretary of the Treasury was also authorized to settle the unpaid expenses of President McKinley's last illness, including \$45,000 for physician's fees.

Was Not Invited.
W. J. Bryan made the announcement that he was not invited to the Tilden Club banquet, in New York, adding that if he had been "he would have responded, explaining why he would not attend a political banquet given in honor of one who twice opposed the Democratic ticket, and has never since announced his intention to return to the party."

DESCRIPTION

bay stallion, star-nip, hind pasterns white; 15 3/4 hands high, foaled in 1884. A fine, large, well-made horse with plenty of substance and quality. An exceedingly well-bred horse, and a high-class race horse. Secured his record in a five-hundred winning race, and was only beaten a head in 2:10 1/4 by but a few feet. ST. VINCENT'S opportunities have not been good; he has but few foals out of good mares. His list of performers are all trotters. He has never sired a pacer. Lord Vincent 2:08 1/4, by him, is everything considered, one of the very best trotters of the present day. He was far from being a sound horse, still, even in that condition, he raced better and struggled harder than most horses that are free from soreness. ST. VINCENT will get great trotters, for in the last two years he has had a better class of mares than I like his breeding and am confident that he will sire great race horses.

ST. VINCENT will stand at the 'stables' of the Mt. Sterling Stock Yards Co. at

Life's Short Pilgrimage.

MRS. BELLE MILLS RICE.

How sweet to my soul grows the prospect of heaven, As, with a light, speed the cycles of time,

Contrasting the changing and perishing cosmos

With eternity's glories, so real and sublime.

This earth is a highway, the Christian a pilgrim

Who journeys, by faith, to a fair, distant land;

Earth's bitter sorrows and unfulfilled longings

Are thorns in the pathway that mangle his hand

As he grasps for the roses of earthly enjoyment

That appear in the springtime as bright buds of hope;

But, ah! they are blasted by sin's blighting power,

And he faded and dead, ere his fair petals ope.

So short is the span of man's earthly existence,

It seems but a day he is seen in the race,

As the sunbeams that break in the morning, all glories,

Are lost in the night shades that gather apace.

But, out from the gloom breaks the vision so wondrous,

The soul's bleak despair to hope giveth o'er.

'Tis the light of that city, resplendent, un fading,

To guide the tired pilgrim to heaven's glad shore—Christ's Standard.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

The Cuban Senate has passed a bill granting amnesty to all American citizens under sentence, or against whom proceedings were pending. A proposal to make the bill applicable to Cubans who fought in the war was rejected, on the ground that this was not within the sphere of the Legislature. It was recommended, however, that the Government pardon all offenders of this class.

A Helpless Child.

A weak and puny child is badly handicapped in the battle of life. It is isolated from the healthy enjoyments of its little fellow-beings. It cannot partake either of their play or their sturdy work and progress in the world; its whole life is embittered by incapacity and weakness.

Any woman who expects to become a mother ought to know what Dr. Pierce's Favorite Prescription will do both for her own health and safety during her time of trial and also to insure her in bequeathing a fair measure of health and strength to the prospective little one.

The Sundry Civil Bill.

The agreement on the Sundry Civil Appropriation Bill, which was concurred in by the House, strikes out \$574,350 of the Senate amendments which remained in dispute after the last conference and which remained in dispute after the last conference and which amounted to \$1,283,950.

A favorable agreement was reached appropriating \$2,000,000 for the construction of buildings as an enlargement of military posts at Hawaii. The provisions agree giving certain appropriations for military posts and allowing the Secretary of War to accept donations of land for the establishment of military posts and national cemeteries, were stricken out. The bill as finally agreed to, carries \$60,125,359.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently, but by strengthening the bowels enable them to perform their own work. Never gripe or distress.

United States Building In SOAP.

A face-smile of the great United States Building at the World's Fair, St. Louis, 1902, is now on exhibition at Ed. MITCHELL'S show window. It is an architectural wonder, built like a fair palace from tons of ROYAL CUTICLE SOAP, THE PRIDE OF THE WORLD TOILET SOAP. As an artistic display, it is a marvelous demonstration and well worth coming miles to see, and will be the most remarkable soap bargain ever offered in America. THE EVER LEADING IN FURTHERING THE INTEREST OF THE PEOPLE HAS WON FOR OUR STORE MUCH WELL DESERVED POPULARITY. THROUGH OUR PROMINENCE, WE HAVE BEEN SELECTED AND APPOINTED AS SOLE DISTRIBUTING AGENT FOR EASTERN KENTUCKY BY THE ROYAL SOAP COMPANY OF CINCINNATI, OHIO, whose soaps have been the standard of excellence for nearly a quarter of a century. It is a wonderfully fine, dainty, medicated soap, soothing to the skin and beautifying to the complexion, and is sold upon its merits exclusively. MORE THAN FIVE MILLION FAMILIES through the length and breadth of the land are to-day using ROYAL CUTICLE SOAP and will use no other. So much for the excellence of this soap. The regular price for ROYAL CUTICLE SOAP is 10c. per cake, but for a limited time, acting as agent for the manufacturers, who desire to introduce the ROYAL CUTICLE SOAP into every home, we have the special privilege from the manufacturers to sell three cakes for 10c., 40c. per dozen or \$4.80 per gross. Freight paid on all five gross orders. This gives us power to save money for all persons. It is so cheap it can be no cheaper, and so good it can be no better. It is within the reach of all. We reserve the right to limit the number of cakes we shall sell to any one customer. Come early.

When a man is drowning his rescue is a question of time. It is the same thing in disease. Many a time the doctor says of a man whose condition is hopeless, "If you'd begun in time you might have been cured."

This is especially true when the disease affects the lungs. Delay is dangerous. The timely use of Dr. Pierce's Golden Medical Discovery will result in a quick cure of deep-seated coughs, bronchitis, and weak lungs. Even when hemorrhages have been frequent and profuse "Golden Medical Discovery" has been used time and again with the result of a perfect and permanent cure. Mr. McCauley, of Leesburg, Armstrong Co., Pa., had eighty-one hemorrhages, and after other medical aid had failed he was completely cured by the use of "Golden Medical Discovery."

Accept no substitute for "Golden Medical Discovery." There is no other medicine just as good for "weak" lungs. "I was in poor health when I commenced taking Dr. Pierce's medicine," writes Mr. Elmer Lawler, of Tulsa, Oklahoma, Ind. "I had stomach, kidney, heart and lung troubles. Was not able to do any work. I had a severe cough and hemorrhages. I had been using your medicine a while I commenced to gain in strength and flesh, and my coughing right away. Took about six bottles of the Golden Medical Discovery. I am now feeling fine. I had grippe and it settled on my lungs, leaving me with a severe cough. I had the doctor but he would not tell me what to do. I had your medicine again and took three or four bottles of the Golden Medical Discovery. Dr. Pierce's Tablets, and that straightened me out. I feel like a different man. I gladly recommend your medicine to all sufferers, for I know it cures me."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Editors Fight.

On Saturday there was a street fight in Lexington between Desha Breckinridge, business manager of the Morning Herald, and W. P. Walton, editor of the Lexington Democrat. They had used harsh words against each other in the columns of their papers. Breckinridge demanded of Walton a retraction or an apology. This Mr. Walton refused and intimated that the difficulty could be settled in any way desired.

Breckinridge made the assault, first by crossing the street to Mr. Walton and then by striking him in the face. They then clinched each other by the throat and went at it. Friends separated them before serious injury was done.

Coronation Indefinitely Postponed.

King Edward VII. of England, was to have been crowned June 26. Representative of the principal governments of the world had assembled in London to witness the event which was to have been on a scale of great magnificence. Great was the disappointment when on Tuesday morning it was announced that the King must submit to an operation for peritphalitis, a disease much like appendicitis and affecting the appendix. The operation was deemed necessary to save his life and was performed at 2 o'clock on Tuesday afternoon. The coronation and all festivities were indefinitely postponed. Later reports indicate that he will recover.

Queen of the Carnival.

The contest has been lively since the announcing of the vote on Saturday last. In this contest any lady of the city or county is eligible, and if you do not see the name of your favorite on the list else where in this paper you can enter her in the contest by voting for her. These contests have become quite a fad in society circles. A warm race is on in Richmond, and Miss Christine Bradley, daughter of ex-Gov. Bradley, is a contestant for the honor of Queen of the Elks Fair Carnival.

The prizes to be awarded the winner are very beautiful and will be sent at Jones' jewelry store.

Dewey Talks.

Admiral Dewey gave some interesting and important testimony before the Senate Philippine Committee. He said there was a definite understanding that Manila was to be surrendered, and admitted that he "had to kill a few people" at the time of the formal surrender for the sake of appearance. He alluded to Consul Pratt as a "busybody." He reiterated the statement that he considered the Philippines more capable of self-government than the Cubans.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently, but by strengthening the bowels enable them to perform their own work. Never gripe or distress.

A window that was left down and locked was up. Prof. entered at window and went to the bolted door and found it unbolted. He hurried to the street but the thief had evidently gone out this way. Nothing was taken.

"I used to think I should lose my mind, my head would feel so bad."

Headache, frequent and severe, falls to the lot of a great many women. Some women look forward each month to several days of suffering with severe headache, the consequence of irregularity, suppression or some other form of womanly ailment. Other women have severe headache upon them like a bird of prey after the least unusual effort or excitement. Usually the headache is associated with extreme nervousness and often with the hard pains which are the result of female weakness. The amazing feature of this suffering is that it is borne so long, accepted so patiently, as if women had been foredoomed to such excruciating torment as make life a daily martyrdom. Yet it can scarcely be wondered at that women feel there is no cure for headache, backache, nervousness, bearing-down pains and other sufferings when so many of them have an experience similar to that described by Mrs. Douglas in her letter below. She says, "I tried seven doctors but received no lasting benefit." After exhausting the skill of available physicians what hope of cure can be left to a woman?

And yet there was a way of cure and Mrs. Douglas found it. She wrote to Dr. Pierce in response to his offer of free consultation, by letter. He advised her of the medicine to take and gave special directions for home treatment, and "the result was wonderful."

"For ten years I suffered with female trouble, all catarrh of the stomach, liver and kidney trouble, and catarrh of the bladder," writes Mrs. Lottie M. Douglas, of Glenmore, Ontario, N. Y. "I would have had headache and backache, stomach and bowels used to bleed a great deal, and I was troubled with bearing-down pains all the time. Tongue would tell how much I suffered from nervousness. I used to think I should lose my mind, my head would feel so bad. My heart was so bad that the least excitement, and even to turn over in bed, would cause palpitation. Had female weakness so bad for three years that I was in bed most of the time; in fact, could scarcely be on my feet at all. I tried seven different doctors, but received no lasting benefit. I was entirely discouraged when I wrote to Dr. Pierce, stating my case. He advised me to try his medicine, and I did so. The first bottle I took helped me, and the bleeding began to go out of my stomach. I continued the medicine until I had taken nine bottles of Dr. Pierce's Favorite Prescription, nine bottles of his 'Golden Medical Discovery' and six vials of his 'Pleasant Pellets.' I also followed special directions for home treatment (which he advised), and the result was wonderful. My bad feelings left me and I can work with comfort now. I give all the praise to Dr. Pierce and his remedy, for I believe they saved my life. Our family physician said I could not get well. You can publish this, for I am willing to let others know how much I suffered and what cured me when others failed."

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It does this by curing the diseases which make women weak and sick. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It cures headache, backache, nervousness, sleeplessness, and other ills which are but the effects of womanly disease.

Dr. R. V. Pierce extends to every sick woman the privilege of consulting him by letter free, in absolute confidence and perfect privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I suffered for twelve years with female trouble," writes Mrs. Milton Grimes, of Adair, Ark. Co., Ark., "which brought on other diseases—heart trouble, bright's disease, nervousness. Had neuritis of stomach, and at times would be nearly paralyzed. I can freely say your medicines (nine bottles in all, five of 'Favorite Prescription,' four of 'Golden Medical Discovery' and two vials of Dr. Pierce's Pleasant Pellets) have cured me. I can freely work with comfort now, but before I would be tired all the time and have a dire headache, and my nerves would be all astringing so I could not sleep. Now I can sleep and do a big day's work, something I had not done for over eleven years before. You have my consent to publish this testimonial, hoping it will be the means of helping some other invalid."

Dr. Pierce's Favorite Prescription cures when other means and medicines fail. That statement is borne out by the letters published above, and by the thousands of others received from glad and grateful women. No matter how complicated the disease or of how long standing, the evidence shows that in forty-nine cases out of fifty these womanly diseases are perfectly and permanently cured by the use of Dr. Pierce's Favorite Prescription.

The dealer who offers a substitute for "Favorite Prescription," does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss; therefore, accept no substitute.

Address: Dr. R. V. PIERCE, Buffalo, N. Y.

The Winchester Democrat has the following which we commend to the careful consideration of our farmers: An industry which is destined to become one of the leading crops in Clark county is the raising of navy beans. Limited crops of this important adjunct to the usual winter bill of fare have been grown by Clark county farmers for years. but it remained for Col. H. P. Thompson to give the crop a thorough test and raise it to the importance of a profitable market one. Last year he had in forty acres and the result proved so satisfactory that this year he will have over sixty acres. Col. A. F. Duckworth and Henry Quisenberry will also raise a good average, and Mr. Alvin T. Beall has put out two acres as a test crop. There may be others who have in this crop in acreage quantities, but the Democrat is not informed as to that fact. With proper cultivation the yield is said to average twenty-five bushels to the acre, and those familiar with the usual market price will readily see that it is one of the most profitable crops that can be produced on the farm. The unusually large acreage of Clark county land which has been devoted to the cultivation of tobacco for many years, and the resultant deterioration of the land, has long ago convinced many of our farmers that a more thorough diversification of crops is necessary to make the farming business a profitable one. One of the principal arguments advanced for the propagation of navy beans is the fact that the crop can be sown, cultivated and marketed within five months, and that the demand is sure and prices nearly always good. Farmers and growers who have been devoting the entire year to the cultivation of tobacco and hemp, will see the many advantages in the shorter time required to market a navy bean crop, and no doubt the enterprise of Col. Thompson and the other gentlemen whom we have mentioned, will be emulated by other farmers who are desirous of getting out of the usual rut and of more thoroughly diversifying their crops. The Democrat is pleased to note the advanced step taken by those gentlemen in improving the product of their land and lessening the hard labor that a tobacco or hemp entails on the producer.

Civil Service Examinations.
The U. S. Civil service commission will hold examinations, during September and October, in several places in each State to secure young men and women for the government service. There are now 126,423 positions in the classified civil service, being an increase of 46,736 in six years. There were 7,872 persons appointed between July 1, 1901, and April 15, 1902, being at the rate of 10,070 for the year. There will probably be 11,000 appointments next year. Salaries of appointment vary from \$600 to \$1,300 a year with liberal promotions afterward. All appointments are for life and for most positions only a common school education is required. Politics or religion is not considered. Those desiring to take examinations of this kind can get full information about them free by writing to the Columbian Correspondence College, Washington, D. C., and asking for its Civil Service Catalogue for 1902.

Horse Sales.
The last day's sale of the Elmendorf yearlings, property of J. R. Haggin, took place Tuesday at Shoptown bay. Fifty-two were sold, bringing a total of \$102,300, with an average of \$1,968. William C. Whitney paid \$5,300 for the son of Hamburg; Sidney Paget secured the bay colt by Imp. Knight of the Thistle—Songstress, for \$7,000.

The price of butter is expected to advance after July 1, when the United States internal revenue tax of 10 cents will be assessed and collected on each pound in artificial collection is used.

Roosevelt Snubbed Him.
On Tuesday in Washington, in the presence of the entire delegation to Congress from Kansas and a committee of citizens from that state, who called at the white house, President Roosevelt openly snubbed United States Senator Burton. The turn down was precipitated on the president's part, on account of the speech the Senator made against the administration on the reciprocity question.

Look out, Mr. President, you will have trouble.
